

## Meritor Part

Meritor Parts - The Meritor Company is a premier global supplier established upon 100 years of tradition of quality and service. Meritor specializes in integrated systems with various modules and components to the original machine manufacturers and aftermarket equipment within the transportation and industrial trades.

Meritor values the requirements of their clients to ensure their success while priding itself in the company's unique energy and thinks this output of energy to be their aggressive advantage in their global operations. Meritor starts with a tradition which values diversity of people and their broad thought processes. Operating in 19 countries and hiring more than eleven thousand two hundred individuals, Meritor promotes innovation and collaboration among a team of experienced professionals.

Meritor strongly believes in only employing future focused people. These top-caliber individuals could rapidly get used to to changing environments and freely demonstrate the level of commitment and performance considered necessary to get results for the competitive market environment. The business empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor offers all of their employees different possibilities for professional and personal development.

Their Advanced Engineering team is at the forefront of parts and system engineering which consist of drivelines, axles, braking and suspension systems meant for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is likewise responsible for supporting the needs of their international engineering staff.

The Quality team at Meritor is a customer-focused and dynamic group who is committed to ensuring optimum growth at their aftermarket distribution facilities and production plant that are located on 5 continents and in 19 countries.

The supplier development network is particularly located to be able to support new business development. Regional teams are supported by worldwide centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making in every part of the trade. The DFSS or Design for Six Sigma ensures product reliability within each and every region. The team is also comprised of transactional Green Belts who apply Six Sigma tools to business techniques and apply lean methods.
