

Spreader Bars for Forklift

Forklift Spreader Bars - Proudly operating ever since 1974, ELME Spreader AB is the largest independent spreader maker around the globe. They have been a devoted producer of spreaders for different applications like the swap bodies, trailers and handling of containers.

ELME presently employs more than 125 personnel with all engineering is done in house by utilizing all the newest CAD systems and FEM tools. Their spreaders are supplied to reach straddle carriers, lift trucks, gantry, quayside, ship-to-shore cranes and stackers across the globe.

The product series of ELME consist of many spreaders for various container and trailer handling operations. Some of their inventory include: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes as well as a huge array of attachments.

ELME production and manufacturing is performed in a highly automated purpose built factory. In the year 2008, they created more than 1150 spreaders by utilizing top quality components so as to ensure dependability and excellent standards while offering reasonable prices. Major features of ELME consist of design simplicity, market response and inventive modular spreader concept.
