

## TCM Forklift Part

TCM Forklift Parts - Forklift trucks are a major player in the material handling field of every international business. Transporting industrial goods happens each day on our hectic planet. Primarily innovated as industrial vehicles during the 1930s in the U.S., forklifts gained popularity after World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these equipment spread globally.

First established as Toyo Carrier Manufacturing Company Limited, in the year 1949, the company was later renamed Toyo Umpanki Co. before becoming recognized as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's very first forklift. Over the years, TCM lift trucks have become an international leader in lift truck manufacturing and have built a solid reputation in the business. TCM started constructing forklift manufacturing locations outside of Japan during the 1980s and is now engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

With over fifty years of accumulated technology and expertise, TCM has been proudly making several models of industrial forklifts, making their models known all around the world. With a strong and energetic staff, TCM has been able to constantly work towards becoming a future leading material handling company.
